FRONTEND DEVELOPER

About me

My goal is to be a part of a team where I can learn, grow, and make a meaningful contribution. I'm incredibly passionate about continuous learning and explore new concepts and skills.

Experience / Projects

• Digital Marketplace

A **full-stack** marketplace where users can buy and sell digital assets, built using **Typescript, React, NextJS, Tailwind, Shadcn, Expressjs, Payload-CMS**, and **MongoDB**, with secure payment integration using **Stripe**.

[Website](#)

[Github](#)

• Task-Management App

A task-management **full-stack** web application that enables users to efficiently organize, track, and manage their tasks, built with **Typescript, React, React-router, and Tailwind**, includes **authentication** and **database** integration using **Firebase**.

[Website](#)

[Github](#)

• Portfolio Website

A personal portfolio website to showcase my work and skills. Built with **Javascript, React** and **Tailwind**. Designed a visually appealing layout with smooth animations and interactive sections with tools such as **Framer Motion**.

[Website](#)

[Github](#)

• Cody-Studio

Built with **vanilla Javascript** and **Monaco editor**, the same editor that powers VS Code. It allows you to code in **JavaScript, CSS, and HTML** with **live previews** and **console debugging**. Customize themes and font sizes, switch between frontend and playground views, with one-click **URL sharing**, powered by **backend** tools such as **Node.js, Express, and MongoDB**.
